Headline: K.I. Nicholas Releases First CD

St. George's, Grenada – The bluesman from Grenada - Raymond "KI" Nicholas releases his first CD of original music showcasing his extraordinary guitar playing and amazing singing.

Entitled *Caribbean Vision* the compilation CD provides a sampling of the styles his music has taken over the past ten years. All songs are his original compositions and showcase his magical guitar playing (acoustic, electric, slide and bass) and the amazing range of his singing voice.

Each song takes a step outside the typical concept for its genre with the Nicholas touch. Nicholas, who taught himself guitar as a kid growing up in the parish of St. Patrick's, Grenada went on to learn bass, piano, clarinet and drums. He plays several instruments on the CD.

Nicholas is currently performing at Foxy's on the island of Jost van Dyke, British Virgin Islands through February of 2006. This is his second stint at Foxy's after a successful three month show there in spring of 2005 he was invited back for a second round! Plans are in the works for a tour later next year.

His new website www.kinicholas.com will be online just after the first of the New Year.
